## PROSPECTUS

**SESSION-  
2024-25**

## From the Desk of President

*“ Learning is a lifelong process; it does not begin at school and end in university.” – Wilson Hasda*

*The mind of man is capable of anything. Some landed on the moon and some are exploring the theories of the multiverse. It all began with an idea in their mind. I appreciate the staff and students of all faculties who use various modes of expansion to present their ideas. As long as our ideas are expressed and thoughts kindled, we can be sure of learning as everything begins with an idea. As the Chinese proverb quotes, “Learning is a treasure that will follow its owner everywhere.” Every student can learn, just not on the same day, or in the same way.*

*The world today is changing in an unprecedented rate and so is the way of learning. Our educators’ goal should also be the holistic development and grooming of students who has an enquiring mind & willingness to learn and apply academic & innovative skills. Students are the future of the country and the progress of the new generation. Therefore, the methods to teach the students should not only be limited to the academics only but in various way by which they learn to become a good human being also.*

*Rabi Haji Degree College has been focused on its obligations and determined at its vision.*

*I hope that the college will march ahead on the path of progress and the coming generation of students would prove true to the golden history of the institutions.*
