From President Desk.....

“Education is the only investment where the profit is seen in the progress of an entire society” – Mritunjay Narzary

Learning does not begin only at School, Colleges, or even at the Universities. It can be gained from anywhere be it from the shopkeeper, mechanic, janitor, farmer, fisherman, driver, weaver etc. People often get confused altogether about education, learning, colleges or universities that they are the same thing, absolutely not. Any individual can learn a skill set from anywhere. However, for a young men/woman to utilize his/her certain skill set or to explore their innate abilities education is required. And for that education or to learn to educate oneself a platform is required which is a school, colleges, universities is preferred. College does not mean only a big building, libraries or different departments, it is a complete environment where all the ideals, skills, arts, inventions, etc. come together. Education is necessarily important not only for certificates or degree, it is the backbone of any individual to shine or to navigate various factors of challenges to their lives. Education is key, a tool to enhance one individual to perform various activities through highest calibre.

The world today is changing in an unprecedented rate and so is the way of learning. Our educators' goal should also be the holistic development and grooming of students who has an enquiring mind & willingness to learn and apply academic & innovative skill. Students are the future of the country and the progress of the new generation. Therefore, the methods to teach the students should not only be limited to the academics only but in various way by which they learn to become a good human being also. Sankosh Degree College has been focused on its obligation and determined at its vision.

I hope that the college will march ahead on the path of progress and the coming generation of students would prove true to the golden history of the institutions.
